Whilst in the security industry, I've seen myself grow, from starting off as a security Response to working my way up the ladder to become a Security Manager at an International Level for a mine in the Amazon South America. I have been deployed in Afghanistan for 2 years where I was trained as a fire arms instructor and gained more knowledge regarding the security industry. I returned to South Africa and become a Guarding Manager with a total staff compliment of over 1000 security officers, working on 120 sites that I was responsible for. I have also qualified myself in the VIP Protection Industry as Instructor. I have started to move out the line of Security and become a Trainer/Facilitator for Pantzer on all the Driven machinery acts. I have worked on several construction contracts as a Semi skilled Fitter. I also have a Blasting Ticket for Mining work where I have worked on mines as a High Speed Developer, Stopping and Remnant areas. I have also relieved as night shift boss. I have also done my fire arm and range master certificates and Instructor.

As a manager, I have participated in all administrative activities. I am self-motivated and can function independently or as a team player. Computer skills are an asset to my organizational abilities related to operations and logistics. I seek challenges as opportunities to broaden my knowledge and improve my skills.

I look forward to hearing from you soon.

Yours Sincerely,

Mr Henk van Tonder
